The Following were in attendance: President Dave Sommers, Vice Chairman Rick Ranstead, Commissioner Bryan Lewis, Surveyor Seth White, Attorney Hollie -Pifer Shorter, drainage secretary: Lacey Holloway. Public Attendance: None

PLEDGE OF ALLEGIANCE

RE: #769 EDDY CREEK ARM #3 BRANCH #1

This ditch account is negative and landowners are wanting to do more work on this ditch. There is 459 acres and rate per acre is \$1.00. \$561.00 a year is all this ditch collects. This account owes the GDI \$2,000.00 as of June 10th 2024.

Set a hearing to raise maintenance from \$1.00 per acre to \$6.50 per acre. for August 12th 2024 @ 9:15 a.m.

RE: 6059 LAKESHORE DRIVE- DRAINAGE PLAN

House was already built before drainage plan was submitted, so surveyor's office went out and took pictures of the gutters and the drainage before approving the drainage plan. All drainage is going towards the lake. Already got verbal approval from two commissioners so now we just need a motion and actual signatures.

Dave Sommers made a motion to approve this drainage plan and Rick Ranstead seconded it. Motion passes 3-0.

RE: 3189 MAIN STREET MACY, IN- DRAINAGE PLAN

This is a typical drainage plan. All water is running to the lake. This drainage plan meets all of the requirements. Motion was made by Dave Sommers to approve the drainage plan. Rick Ranstead seconded the motion and motion passes 3-0.

RE: 1608 IDLEWILD DR.- DRAINAGE PLAN

Mr. Tuttle submitted a drainage plan for this property. Basically, all they are doing is taking out some concrete and replacing the concrete, so just changing the surface to where people walk down to the lake. This drainage plan meets all the requirements and has been approved by the Surveyor. Motion was made to approve this drainage plan by Rick Ranstead and was seconded by Dave Sommers. Motion passes 3-0.

RE: HEARING SET FOR #834 JM ROBBINS TO LOWER MAINTENANCE RATE

This ditch is a joint ditch with Miami County, Greg Wilkerson asked in their drainage board meeting on May 2024 about waving their rights to this hearing. Motion was made by Fred Mussleman, seconded by Brenda Weaver and passed by 3-0 to waive their rights to the #834 JM Robbins hearing at the end of July 2024 at the Fulton County Annex building.

RE: MILL CREEK

Rick Ranstead wants to know the next step on Mill Creek. Seth said the Law suites been lifted, so at this point the drainage office can start looking at it and start getting a contractor in there to clean it. There is no money in this account due to just getting it set back up on maintenance, so whatever work is done on this ditch will have to come out of the GDI. It wouldn't hurt to have Trent (the Mayor) come back in within the next couple of months before winter and talk about what needs to be done by Olson Road and see how far he wants us to go. If he wants us to go all the way to the river or start at Olson, and then talk about where to burn and burry the trees. If the city has ground right outside of city limits and if Trent is good with the contractor taking the trees there and burning them and burying them. Rick Ranstead saw on some kind of social media that the city was pulling trees out of Mill Creek. So, the drainage/surveyors office protocol is that if anyone is going to do work on a ditch/tile themselves then they must notify the surveyors office before starting on any work. So, the city can pull trees, and send us the bill that's fine, but they were supposed to notify our office first.
